PORTAL Rights v11.7	Portal Rights Descriptions	Master Control Version Introduced	MasterControl Version Obsolete	Document								Training	Process	Projects		Supplier	Quality Events				BOMS								
				SubAdmin	Doc Admin	Creator-Reviewer	All Company	All Company-vo	Vault Reader	Vault View Only	Training Coordinator	Training Supervisor	Form Builder	Manage Projects	Reporter	View ONLY-	Manage Suppliers	Reporter	View ONLY-	CAPA Manager	CAPA Coordinator	CAPA-QA	CAPA Process Owner	CAPA Participant	CAPA Approver	Manage BOMS	Reporter	View ONLY-	Manage Risk
Audit Log	Search for and view any change that has been made to the system through the Audit Log. View the Audit Log landing page link on the Home Page Link list page.	11.0		X															X	X									
Audit Settings	Set the level to which MasterControl Portal will track changes to the system.	11.0																											
Certify Password	When a SubAdmin changes another user's password, a second user's signature is required to certify the change. This right grants the user rights to certify the password changes.	11.0		X	X																								
Check In Administration	Allows a user to check in an InfoCard that was checked out by another user.	11.0		X	X																								
Configuration Manager	Easily allows users to move settings from one MasterControl site to another. Right handles import and export of vaults, lifecycles, and custom fields. The information is exported to a JSON file, which can then be uploaded to another MasterControl site.	11.6		X																									
Configure Mobile	Allows users to create a link between a MasterControl site and a Mobile application. Emails will show this mobile link as well.	11.0																											
Create External Links	Generate links to system files and InfoCards that users can access from outside MasterControl Portal.	11.0		X	X															X	X								
Create Links from Templates	Shows template options in the Link Type dropdown on the link editing form when creating a new link.	11.0		X	X									X	X		X	X								X	X		
Create Public Links	Allows users to specify whether a link they create is Public or Private. A user without this right can only create Private links.	11.0		X	X						X																		
Custom Fields	Add, edit, and delete InfoCard custom fields for tracking custom data. View the Create Custom Field landing page link on the Home Page Link list page.	11.0		X																									
Custom Hubs	Allows users to access the Custom Hubs list page and install or delete hubs. Formerly "Custom Menus."	11.5																											
Custom InfoCard Number	Manually enter InfoCard numbers that do not necessarily comply with the auto-numbering system.	11.0		X	X																								
Custom Menus	Allows users to access the Custom Menus list page and install or delete menus. Renamed as "Custom Hubs" in 11.5.	11.0	11.5									X																	
Customize Reports	Allow users to create custom reports. Used with individual application report rights to determine what types of reports can be customized.	11.0		X	X	X					X	X	X	X	X		X	X	X	X	X					X	X		X
Data Structures Configure	Allows users to access the Data Structures list page and manipulate Data Structure configuration.	11.0		X								X																	
Data Structures List	Allows users to access the Data Structures list page.	11.0		X								X																	
Document Retention	Allow users to specify a time for an InfoCard main file to be purged from the system.	11.0		X	X																								
Document Retention Configuration	Determine where files are stored once they leave the system.	11.0																											
Document Retention Restoration	Allow users to restore a document that has been removed from the system.	11.0		X	X																								
Document Retention Suspension	Suspend removal of a document scheduled to be removed.	11.0		X	X																								
Document Settings Configuration	Allows users to enable and disable Metadata Integration globally	11.4		X	X																								
Document Stamping Configuration	Allows users to enable and disable Metadata Integration globally. Was replaced by Document Settings Configuration in 11.4 to remain more consistent with Documents module.	11.0	11.4																										
Edit Reports	Allows users to edit Portal Reports. Also allows users to change between the basic and Interactive views.	11.7		X	X	O					X																		
E-mail Notification Preference	Allow users to configure notification of a launched task.	11.0		X	X						X																		
EBR	Allows access of EBR from the MasterControl menu and EMS for clients that have EBR																												
External Datasources	Create and define external datasources for use in MasterControl Process.	11.0										X																	
Guests	Ability to enable, disable, delete and otherwise manage users external to MasterControl.	11.0		X																									
Home & Login Page Settings	Add Web links to and set properties for the MasterControl Portal Home page.	11.0																											
Import Configuration	Ability to import InfoCard Types, lifecycles, vaults, and Enterprise Business Units.	11.0		X																									
Import Data	Mass import InfoCards (with or without files), attachments, and custom fields into MasterControl Portal.	11.0		X																									
Import Users	Ability to import Users into MasterControl via tab-delimited file.	11.0		X																									
InfoCard	Access InfoCards. View the View InfoCards landing page link on the Home Page Link list page.	11.0		X	X	X	X	X	X	X	X	X	X	X	X		X	X	X	X	X	X	X	X	X	X	X		X
InfoCard Types	Add, edit, and delete InfoCard Types. View the View InfoCards landing page link on the Home Page Link list page.	11.0		X								X																	
LDAP Import	Ability to import users on other networks via LDAP Servers.	11.0		X																									
LDAP Servers	Ability to import LDAP servers.	11.0

test500

MD-SOP-0045 R- 02

A blank coordinate grid with x and y axes. The grid is 20 units wide and 20 units high. The x-axis is labeled 'x' at the right end, and the y-axis is labeled 'y' at the top end. The grid lines are light gray, and the axes are slightly thicker.

DOCUMENT Rights	Document Rights Descriptions	Master Control Version	MasterControl Version Obsoleted	SubAdmin	Doc Admin	Creator/Reviser	Training	All Company	All Company-vo	Vault Reader	Vault View Only
Approve Packets	Approve, collaborate on, or reject a packet task.	11.0		X	X	X	X	X		X	
Create Taxonomies	Create taxonomy grouping.	11.0		X	X	O					
Document Reports	Generate preset MasterControl Documents reports.	11.0	11.7	X	X	X					
Edit Reports	Allows users to edit Document Reports. Also allows users to change between the basic and Interactive views.	11.7		X	X	O	X				
E-mail Import	Convert e-mails to Document InfoCards.	11.0		O	O	O					
E-mail Import Configuration	Specify the e-mail address from which e-mails will be imported, and configure the server, port, and frequency with which the system checks the e-mail address.	11.0									
Explorer	Allows users to view Organizers in the "Explorer" view from the Documents hub. In 11.4 and 11.5, this option is only available for full license users. In 11.6, this option is available for both full license and view only users.	11.4		X	X	X	X	X	X	X	X
Manage Documents	View the Documents InfoCard list and manipulate (view, check out, etc.) Document InfoCards. View the Create Documents, Search Documents and View Documents landing page links on the Home Page Link list page.	11.0		X	X	X	X	X		X	
Manage Organizers	View the Organizers InfoCard list and manipulate (view, check out, etc.) Organizer InfoCards. View the Create Organizer, Search Organizers and View Organizers landing page links on the Home Page Link list page.	11.0		X	X	O					
Manage Routes	Create, edit, and delete workflows for use in MasterControl Documents.	11.0	11.7	X	X						
Manage Workflows	Create, edit, and delete workflows for use in MasterControl Documents.	11.7		X	X

\* users on response and default action tasks also need "Approve Packets" in Docs module (if module is installed, otherwise disregard). Users will generally get this right as a result of the "All Company" role, however, if that role is not being used for some reason be sure to add the right to the Auditors and Responders roles.
